AEW YORK, Jan. 26.—The steck market manifested orly a languid disposition to respond to very active and boil, and nipulation to which it was subjected today, until the appearance of the bank statement. Immediately on the appearance of the statement upon the tape the market became animated and the dealings broadened out considerably. Nevertheless, the market remained spotty to the close, and although there was a large number of stocks which show advance of 1 to 2 points, many parts of the list failed to respond to the advance at all.

St. Paul was the feature all day. The stock was exceedingly feverish and unsteady at times, but it was advanced with determination and made the last price at the top six points above last night. The dealings were on a very large-scale. The preferred stock gained 2%. The Kansas and Texas stocks continued to hold a conspicuous place in the market, and the preferred rose 2% in the early dealings, but suffered later from profit taking. Hock Island rose 2% and the grangers and Northern Pacific were all strong.

The bank statement discloses a fairly plethoric amount of money, and the very liberal expansion of loans by the banks of over ten million dollars has not sufficed to keep pace with the rapid congestion of reserves.

A notable feature of the cash increase is the overwhelming preponderance of

to keep pace with the rapid congestion of reserves.

A notable feature of the cash increase is the overwhelming preponderance of specie in the receipts. The week's increase of \$7,057,490 brings the specie holdings for New York banks up to \$191,719,-200, which compares with the maximum record of \$206,876,500 on May 27, 1800. The Sub-Treasury payments are being made almost wholly in gold, including the large current redemptions of national bank notes, but mail and express receipts from the interior by the banks irriude a large number of gold certificates of large denomination. The banks have also received payment from the Sub-Treasury on account of a million-dollar receipts of gold in San Francisco.

Yesterday's steamer from Australia brought \$602,000 more in gold to San Francisco, which will figure in New York bank reserves eventually. It is worthy of notice that all of the \$4,000,000 gold experted this week also came from the Government Assay Office. The speculative contingent in the stock market evidently looks to this redundancy of loanable reserve to stimulate speculative buying of stocks. It is also certain to stimulate the expert of gold.

With a further rise to-day in the quoted rates for sterling exchange in the nominal Saturday market, with an advance in the call-money rate in London, and with sterling hardening at Paris, it is not unlikely that the coming week will see gold go to London instead of to Paris. The remittances abroad in payment of returning securities continue on a large scale and keep up the exchange rate.

The bond market has been relatively more active than for stocks, and prices have been better maintained. Bonds of the principal southwestern railroads have been in large demand and show striking gains. United States new 4's and 3's registered advanced 14, and do, coupen 15 over the call price of a week ago.

Total sales of stocks to-day were 545,100 shares. A notable feature of the cash increase

COTTON MARKETS

NEW YORK, Jan. 26.—COTTON—The cotton market opened steady, with prices 5 points higher on January and 2 to 6 points lower on the rest of the list, All the short session the January position held a relatively firmer station than the rest of the list, due to a merciless round-up of luckless belated shorts who had depended on the increasing New York stock to force liquidation and thereby help them out of their precarious position.

Last night the current month closed at 10:06. It opened this morning at 10.11, and shot up to 10.25 on a desperate rush to cover. Despite very disappointing Eaglish cables and heavy receipts at the ports, later months slowly worked upward after the call in sympathy with the strength in January. The market for futures closed tarely steady, with prices net 14 points higher on January, but 3 to 7 points lower on other months.

Estimated receipts at the ports to-day 26,000 bales, against 10,322 bales actual last week and 23,896 actual last year; for the week, 170,000 bales, against 163,000 actual last week and 215,028 actual last year.

To-day's receipts at New Orleans were

year. To-day's receipts at New Orleans were 6,637 bales, and Houston 6,974 bales, against 6,947 last year.

Nothing was heard until yesterday, when she received a message from Hunt at New Milford, Pa., saying he was in that village. Going there, she found him at a hotel, where he had just arrived from Richmond, Va.

"How he reached that city he did not know. His first recollection was when he awoke, as from a dream, to find himself in Richmond without friends or money. What was worse, he could not recall his name or where he was from. In order to subsist, he obtained a position as porter in a Richmond hotel at \$1.50 a day. He worked as bartender and did all kinds of labor about the place. One day he picked up a newspaper and saw his wife's advertisement. His memory came back with a rush, and he knew his name and his place of residence. He drew his pay and started for home, but it occurred to him that if any one learned his story they might claim the reward, so he went to New Milford and wired his wife to come on. He is apparently rather weak; he cannot explain why he went to Richmond, as he had no friends or relations in that section."

#### MAINTAIN PARITY.

House Committee Vote Favorably on Overstreet Bill. (By Associated Press.)

WASHINGTON, Jan. 26.-The House Committee on Banking and Currency today voted six to four in favor of reporting the Overstreet bill maintaining at all times the parity of the standard silver dollar with gold. The Democrats-Driggs, of New York, and Thayer, of Massachu-

setts—voted with the Republicans.

The Overstreet bill placed two gold redemption bills on the House catandar, the Committee on Colnage having previously reported the Hill bill. The measures differ, however, the Hill bill providing for turning the silver dollar into small coin, while the Overstreet bill establishes a parity by making the silver dollar exchangeable for gold on demandatine Treasury.

Mr. Overstreet was authorized to make

the report and the minority also will make a dissenting report.

Scramble Among Passengers. There was a lively time among the pas-

Sengers of car No. 63, of the Traction, Company's line, about 7 o clock last, night. The car had come up the Broad-Street hill, and had just reached a point in front of New Ford's Hotel when the box burned out. The car was filled with smoke, and there was a scramble among the passengers. There was no damage done, however, outside the burning out of the box of the car.
